About Us

"Creating ongoing relationships with our clients and extended community is what we're about."

- Shane Savill

DREAMTIME CABINS ALL STARTED WITH A CONVERSATION WHILE SURFING

Inspiration came to Shane Savill and his cousin, who came up with the idea to build portable buildings while waiting for the perfect wave.

Shane's experience in building and project management, through relocating houses throughout Auckland and Northland for nearly a decade, made the idea a feasible one.

The concept was to build an outstanding product while keeping overheads down, and pass on those benefits to the clients - making Dreamtime cabins and sheds the most competitive in the market.

Our Goals

- To buzz people out with our quirky style of service and great product, creating ongoing relationships with happy clients.
- To provide warm and healthy accommodation and office space, which meet the growing demand for both business and residential solutions.
- To surprise our clients with the quality of our product and the reliability of service, at an affordable price.

Our Values

- Honesty
- Professional Service
- Flexibility

Testimonials

"Dreamtime Cabins impressed me on multiple levels. Shane has an incredible sense of humour, brought forward beautiful cabins for my consideration and delivered all in a timely manner. Shane, your communication skills are unforgettable! How could so many terrific characteristics and knack find their way into one company? **I recommend Shane and Dreamtime Cabins and would hire him again in a heartbeat.**"

- Camill Amunsden

"Dreamtime Cabins provided us with an extra room we needed for our teenager moving home for 6 months. **The service was great.** The cabin was like new when it arrived, warm and clean and was able to be positioned carefully down the side of our house even though the driveway space was limited. Shane was great, always friendly and pleasant to deal with. I would definitely recommend Dreamtime Cabins to anyone needing extra space and especially to keep teenagers out of the house!"

- Graeme Chalmer

"This cabin has been a real lifesaver for me and my family. We were getting too many people in the house, it got too crowded and I got annoyed. The perfect solution was to have this awesome sleep-out in the garden. Our daughter and or friends have been using it and we love it. We put in a queen-sized bed and some furniture and it is just fabulous. Shane has been really nice. He is a fun guy and very good to do business with. **Highly recommended!**"

- Dreamtime Customer

"From the initial conversation to the delivery and installment of our cabin, we have found our dealings with Dreamtime Cabins to be just that – **a dream to deal with.** Our cabin made an ideal studio to create and work from and was a convenient solution to a problem of needing a work space at home after we had to leave our old workroom premise and couldn't find any other suitable locations.
